

## SMOOTH-SEAL™ CENTER PUNCH PREFORMED HOSE CLAMPS

Strapbinder's patented double wrapped center punch preformed hose clamps provide a smooth inside diameter to minimize leak paths. Center punch clamps can be applied with automatic hose clamping machinery, the Strapbinder HBC-300 tensioning tool, or the HBC-038 ratchet style application tool.

### INDUSTRIES

- Agriculture
- Oil and gas
- Mining
- Marine
- Chemical processing & refining
- Municipalities
- Construction

Ideal for most industrial hose clamping applications. Available in multiple diameters and 3/8" or 5/8" band widths, Strapbinder clamps can be ordered in stainless steel or high strength galvanized steel with heavy duty stainless steel locks.

## APPLICATIONS

Tank Truck Hose

PVC Discharge Hose

Rubber Air Hose

## Center Punch Tools

Strapbinder's tools for securing center punch clamps are durable, lightweight and easy to use.

### HBC-300

Part #CGXA874455

Hand operated ratchet-action tool for 5/8" bands. Can be used with the HBC-032 adaptor for 3/8" bands.

### HBC-038

Part #CGXA721011

Hand operated, light duty ratchet style center punch clamp tool for both 3/8" and 5/8" bands. Its portable design makes it ideal for field repairs.

### HBC-032 Adaptor

Part #HBC032ADPT

Easily inserted into the HBC-300 center punch tool for use with 3/8" wide band clamps.

### Grip Clamp Battery Powered Tool

Part #800800

Battery Powered Center Punch Tensioning tool for 5/8" stainless steel and galvanized clamps. Single touch operation. Preset tension settings yield constant tension on each clamp applied.
